

KHMER VOICE FOR DEMOCRACY

0

MISSION STATEMENT OF KHMER VOICE FOR DEMOCRACY

Because we see that our country is currently facing many serious problems that could lead to a loss of our nation to hungry neighboring countries in the very near future, all Cambodians have an obligation to come together to solve these problems. Therefore, KHMER VOICE FOR DEMOCRACY has identified and focused on four important actions that we can take to achieve democracy for our country:

- 1. To unite all Cambodians around the world in the campaign to create an ultimate goal of solving the problems our people and country face;**
- 2. To Identify and connect ourselves with other communities and democratic political parties around the world who are willing to aid us in our quest for democracy;**
- 3. To provide educational goals, ideas and financial and emotional support to media broadcasting stations that broadcast news that serves democracy and educates others about the danger Cambodia is facing; and**
- 4. To create programs that help people in need of food assistance, supplies and shelter for poor people who are unable to provide for themselves in their everyday needs.**
